

SOCIAL ENGINEERING

Manipulation is Fraudster's Weapon,
Awareness is Yours.

Cybercriminals don't always hack devices - they hack people through phishing emails, fake calls, and impersonation, they trick you into revealing passwords, financial details, or confidential information.

Do's

- Verify Identities, confirm before sharing sensitive data.
- Be Skeptical, Question urgent or suspicious requests.
- Report Suspicious Activity, Alert your IT/security team.

Don'ts

- Don't Share Passwords or OTPs with anyone.
- Don't Click Unknown Links or download attachments blindly.
- Don't Trust Caller ID Alone verify through alternate means.
